

Fresh Connection

Hands-On Experience in Two Gardens

Season One – Promise in the Fall Garden

During this three hour experience your thoughts about seeds and planting will be turned on it's head as you enjoy our fall planting and savouring event. You'll visit Urban Sunset Farms located on a small plot of land in a local village. Join Tabitha and Brian Hastings to experience the joys and challenges of growing vegetables for their family and community. You will be hands-on in the soil as you work through the fall garlic planting process, while touring the farm. You will enjoy the fruits of your labours as you can transfer this new found knowledge to your own garlic patch at home.

AND, THEN, travel in your vehicle to nearby Crazy 8 Barn & Garden to enjoy a Farm Hand Snack Break with treats from the garden and native trees.

Then, you will get up close to rare Carolinian Trees that are growing in the garden of Susanne Spence Wilkins, a certified seed collector. You will touch, feel, smell, taste and hear the sounds that are associated with native trees and seeds. You'll see first hand of how seeds of trees have been used for generations; harvest tree seeds and create a natural product from tree seeds that will change the way you look at trees. In the future, you will be confident to forage and enjoy the bounty of native tree seeds.
